

Nabil AïNAS

CLOUD & DEVOPS ENGINEER

nblainas@gmail.com · <https://ainedev.dev> · <https://www.linkedin.com/in/ainedev/> · Paris, 

SKILLS

Python · Helm · Terraform · Kanban/Scrum · IBM Cloud · AWS · Azure · K8s/Openshift

PROFESSIONAL EXPERIENCE

BNP Paribas

Sept 2023 - Sept 2025

Cloud & DevOps Engineer

- Designed and implemented a **cloud service** to onboard BNPP business entities into our own **IBM Cloud sandbox environments**.
- Created **preconfigured landing zones** and **test environments** with wrapped financial services products in the internal IBM Cloud catalog, enabling teams to test their solutions before production.
- Provided **technical support** and managed **product technical debt**, including **Terraform module updates**, deployment **pipeline improvements**, and **resolution of bugs**.
- Delivered BNPP-focused **Terraform training sessions** for teams across entities, in both **English and French**, averaging **30** participants per session.

Publicis Groupe : RE:SOURCES

May 2022 - Sept 2023

SysAdmin

- **Monitored servers** via GLPI/SolarWinds and provided **Level 1 and 2 incident response** through ServiceNow, ensuring system stability and minimizing downtime.
- Performed **vulnerability remediation on Red Hat servers**, enhancing security, compliance, and infrastructure resilience.
- **Developed an application** for streamlined multi-stakeholder approval via email, accelerating decision-making and collaboration.
- Supported **on-premises to Azure applications migrations**, enabling scalability and cloud resource access for Publicis entities.

Ained

June 2022 - now

Independant

- I gave **computer oriented and 3D modeling courses** to students from high school, I followed them throughout the year by proposing fun and interesting projects. For example web development (HTML, CSS), video game development (godot engine) or 3D modeling (blender), I created courses and projects (with support videos and/or pdf) so that they have a good basis and a guideline when learning.
 - **Developed Discord bot** (IA, Web Scrapping, Automation) using discord.py to create a service offer on a discord server.
 - **Website creation** using React and TailwindCSS to provide a better experience for agencies.
-

EDUCATION & CERTIFICATIONS

Master DevOps

Sup De Vinci

Bachelor System & Network Administrator

Sup de Vinci

HashiCorp Certified: Terraform Associate (003)

[link](#)

Over three years, I developed a strong foundation in project management, systems and network administration, cloud computing, and DevOps.

In my Bachelor's, I focused on project management and systems administration (Windows Server, Linux, Cisco), along with hands-on work in security and virtualization (VMware).

In my Master's, I expanded into IT strategy, budget planning, and cloud CI/CD setups, advancing my skills in infrastructure as code, Kubernetes, and automation with Ansible for DevOps.
